

Supplies for 2010-2011 classes taught by Noel

AP Chemistry

- \$40 lab fee
- 2 inch binder (must only be used for chemistry)
- Spiral notebook or composition book to act as a laboratory notebook (must only be used for Chemistry)
- A planner with which to keep up with assignments (can be used for multiple subjects)
- dividers for binder
- Scientific calculator of some kind (graphing is acceptable but memories will be erased before exams; I recommend a regular scientific calculator as these will be the only calculators allowed in college science classes)
- basic classroom supplies (pens, pencils, paper, etc).
- 1 box examination or surgical latex/vinyl/nitrile gloves for labs. Latex is the easiest to find but nitrile is recommended, as people tend not to be allergic to nitrile as often as they are to latex.

Chemistry

- \$25 lab fee
- 2 inch binder (must only be used for chemistry)
- Spiral notebook or composition book to act as a laboratory notebook (must only be used for Chemistry)
- A planner with which to keep up with assignments (can be used for multiple subjects)
- dividers for binder
- Scientific calculator of some kind (graphing is acceptable but memories will be erased before exams; I recommend a regular scientific calculator as these will be the only calculators allowed in college science classes)
- basic classroom supplies (pens, pencils, paper, etc).
- 1 box examination or surgical latex/vinyl/nitrile gloves for labs. Latex is the easiest to find but nitrile is recommended, as people tend not to be allergic to nitrile as often as they are to latex.

Aquatic science

- \$25 lab fee
- 2 inch binder (must only be used for aquatic science)
- A planner with which to keep up with assignments (can be used for multiple subjects)
- dividers for binder
- Scientific calculator of some kind (graphing is acceptable but memories will be erased before exams; I recommend a regular scientific calculator as these will be the only calculators allowed in college science classes)
- basic classroom supplies (pens, pencils, paper, etc).
- 1 box examination or surgical latex/vinyl/nitrile gloves for labs. Latex is the easiest to find but nitrile is recommended, as people tend not to be allergic to nitrile as often as they are to latex.
- field clothes and accessories: closed-toed shoes (sneakers recommended), long pants (cargo pants recommended), sunscreen, hat, water bottle
